

## Hall Staff Diary

5<sup>th</sup> October 2018

### Business diary

We've written business diary every single day since 18<sup>th</sup> April 2018 to record a daily event. Since there are no rules in this note apart from writing dates and writing names, anyone of staff can do whatever we want. We've written what we did today, what happened today, etc.

Another role of this note is to tell the other staff the atmosphere of the day.

We are working on our shift, we do not have the same staff every day,

Nonetheless, nothing special happens every day.

Anyway, we think we're enjoying writing this note.

So we thought we wanted to tell you our casual daily life.

If you do not understand what you do in your tree time, please try reading our diary.
