

6th April 2020

Coronavirus

Coronavirus, which is currently suspended world wide is a highly infectious virus among infectious diseases that have become prevalent in recent years.

Since the first infected person was confirmed in Japan in early February, Coronavirus is currently curbing economic activity for many people.

We, who run the hall, are no exception, our activities have been suspended since March 3. It's like we're in a tunnel with no visible exit. There is no endless tunnel, now just walk patiently to the exit

We realize that it is not natural to be happy to work or to be able to engage in cultural activities, and condolences to everyone who died from the coronavirus.
