Enjoy our working life

I think it's the job that everyone spends the most time in their lives. However, I don't think anyone can get the job they want. Perhaps there are many people in our industry who chose their jobs with hope. I think it was a blessing.

of course, It's not a promise of a happy working life, and there are many hardships and difficulties along the way. Perhaps the coronavirus that started last year may be one of the difficulties.

I think it would be wonderful if I could enjoy a long working life with such difficulties.

It can always be difficult to meet conditions such as work environment, other colleagues, company policy, etc. Still, I think it is important to do your favorite job and have a good time.

There are times when our work goes wrong, but I wish you all a happy working life.
