## Seya Public Hall

Seya Public Hall is a small hall in Seya Ward, Yokohama City. It's the only hall in Seya Ward. Therefore, although it is a small ward with a population of 120,000, it is a hall that is familiar to many inhabitants.

Every day, many customers come to the public hall and use it for recitals, concerts, lectures, musical instrument practice, dance practice, circle activities, chorus practice, etc.

The staff is supported by such users. If customers do not use the public hall, the staff will not have a job and we will not be able to fulfill your purpose as a facility. That's why the staff are grateful to customers for using it and will strive to keep our facility available forever.

Even in a small hall in such a small town, we are glad that it is useful for many people. All the staff at work like this hall.

That's why we are working today in this small town on the edge of Yokohama to satisfy all the customers who come.

We hope this feeling will reach our customers as much as possible.
